
COURSE DESCRIPTION:

This workshop will show examples of proper signs and markings, sign requirements, proper placement, warrants, sign supports and pavement markings. This course will also discuss the background on traffic signals, signal indications, hardware, left turn signals, signal coordination and pedestrian signals. Also included in this course are the latest changes to the Manual for Uniform Traffic Control Devices (MUTCD).

This workshop is a required course for Roads Scholar and is worth six professional development hours.

INSTRUCTOR: KEN AGENT

Kenneth R. Agent, P.E., is a Transportation Research Engineer in the Traffic and Safety Section at the Kentucky Transportation Center. He earned his B.S. and M.S. in Civil Engineering at the University of Kentucky. Agent has conducted research in the general areas of highway safety and evaluations of various traffic control and operations and has conducted numerous reconstructions of traffic crashes.

AGENDA

Introduction

Examples of Proper Signs and Markings – Sign Requirements

Break
