Kentucky Transportation Hall of Fame Inductees Announced

Lexington – January 20, 2012 – The Kentucky Transportation Hall of Fame Inductees were announced at the Kentuckians for Better Transportation conference closing luncheon held at the Lexington Convention Center.

Patsy Anderson, A. Russell Romine and R. Leon Walden (Posthumously) were announced as the 2011 inductees. Each was selected because they have dedicated their time, knowledge, and creativity to provide an efficient and safe transportation system in the Commonwealth.

The Hall of Fame was established by the Center in 1990. Each year a selection committee composed of Kentucky transportation executive, officials, and college professors requests nominations from across the state and choose a recipient(s) from those nominations.
