

# Road Safety Resources

Road SAFETY  
CHAMPION Program

The Road Safety Champion Program (RSCP) is a new certificate program for those who work on Kentucky's roadways. Developed by the [National Center for Rural Road Safety](http://www.nsc.org/road-safety/get-involved/road-to-zero), RSCP prepares individuals with courses in roadway safety and engineering.

Below are the resources referenced in the first module, Introduction to Road Safety.

Adam Kirk's contact information for the RSCP and the Safety Circuit Rider Program, which provides technical assistance to local governments, is provided below.

To join the Road Safety Champion program, visit <https://www.kyt2.com/training/road-safety-champion-program>.
