Pesticide Continuing Education

Any person handling, applying or supervising the use of pesticides as part of that person’s job must be certified and licensed by the Kentucky Department of Agriculture. Non-commercial pesticide applicators must complete twelve hours of training over a three-year period to remain certified. Our workshops offer four hours of continuing education.

Don’t let your Pesticide license expire! If you are currently licensed and need credit in order to keep your applicator’s license, sign up for our Continuing Education Training workshop! We have six classes coming up in September!

**Category 3, 5, 6, 8 and 18 Continuing Education Training**

This workshop is for those individuals who are currently licensed and who need continuing education credit in order to keep their applicator’s license.

**September**
10, 11, 12 - Fairfield Inn, North Lexington  
24, 25, 26 - Lake Barkley State Resort Park, Cadiz

**October**
01, 02, 03 - Rough River Dam State Resort Park, Falls of Rough  
16, 17 ------ Holiday Inn Express, Somerset  
22, 24 ------ Red Lion Inn, Elizabethtown  
31 ----------- Pennyrile Forest State Resort Park, Dawson Springs

**REGISTER**
Day 1 is Erosion Prevention and Sediment Control Training/Continuing Education for the City of Bowling Green.

Day 2 will be a display of different BMPs (Best Management Practices) for storm water management on construction projects, such as construction exits, silt fence and erosion control blankets.

There will also be vendors there to demonstrate how to install them properly.

*One of our KEpsc instructors will be on site to discuss KYTC specific standards.*

Register at [Kentucky Muddy Water Blues](#) or call (270) 393-3628

---

**Child Passenger Safety Week**

Every 32 seconds in 2017, one child under the age of 13 in a passenger vehicle was involved in a crash. Many times, injuries and deaths can be prevented by proper use of car seats, boosters, and seat belts.

National Highway Traffic Safety Administration (NHTSA) and the Ad Council launched a new series of public service ads (PSAs) that urge parents and caregivers to protect their child’s future at every stage of life, by making sure they secure them in the correct car seat for their age, height, and weight.

**National Seat Check Saturday is September 21, 2019**

For more information about this training, click [here](#).
Traffic Incident Management (TIM) Responder Training

Our last Traffic Incident Management course of 2019 will be held at the Boone County Extension Center on October 23, 2019.

Kentucky’s Traffic Incident Management (TIM) training program addresses the challenges of moving people and goods efficiently and safely on the nation’s highways. The Program focuses on response efforts that protect motorists and responders while minimizing the impact on traffic flow.
